

# Covid Catch Up, Recovery Premium and School Led Tutoring

## March 21-April 22

£7300 + £1184 + £945 =£9429

Each class teacher (9 teachers) has led 3 x 6 weeks of Catch Up Clubs after school during the period above. Each lasting 45mins to 1 hour depending on age group of children = 121-162 hours of additional teaching. Each group had between 4-7 children participating and the focus each term was pertinent to the children's individual needs as well as group needs based on recent assessments and diagnostic analysis of tests.

We have 218 children on roll and 124 children in total have participated during the course of the year (11 of our PP children have attended twice during the year) and benefited from this additional support. Teaching assistants supported the teaching alongside the class teacher- making the group ratio significantly smaller.

Year	Reading			Writing			Maths			6+points progress
	<3	6 points	>6	<3	6 points	>6	<3	6 points	>6	
1 (3)	33%	66%	0%	33%	66%	0%	33%	66%	0%	66%
3 (4)	25%	75%	0%	25%	75%	0%	25%	75%	0%	75%
4 (3)	33%	67%	0%	33%	67%	0%	33%	67%	0%	67%
5 (3)	33%	67%	0%	33%	67%	0%	33%	67%	0%	67%
6 (3)	0%	100%	0%	0%	100%	0%	0%	100%	0%	100%

It allowed gaps in their learning to be plugged as well as new learning to be reinforced and cemented. We asked each class teacher to lead these sessions as they were without doubt, the best option to serve our children.

Additional manipulatives in maths have been purchased so no class needs to share. Our reading fluency champion has worked each term with groups of children who have been identified as needing a 'catch up' programme. Our Covid Recovery Plan can be viewed on the website too.
